DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of the Group I claims in the reply filed on January 5, 2005 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States..

Claims 1-4, 17, 18, 20, 21, 25 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Nitecki (U.S. Patent No. 6,311,547). The patent to Nitecki discloses a fuel dispenser comprising a housing (1), an internal fluid piping conduit, pump (10) and a leak collection chamber (102) located inside the housing to collect leaked fluids, col. 2, line 65 thru col. 3, line 7. A pipe (21) extends through an orifice formed in a slanted collection plate (101); see Figure 6. The dispenser includes a level detector (103) as a part of the leak collection chamber to determine the level of the leaked fluids in the chamber, therein controlling the operation of the pump (10); see col. 3, lines 17-30.

Allowable Subject Matter

Claims 5-16, 19, 22-24 and 26-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
